Sparking Portable Sales with Mobile Chargers, M. Gutsche, April, p. 90.

SERVICE

Shops Talk, G. Dennis, July, p. 22.

It will bring in the clowns.

Automatic Vehicle ID

This low cost system is guaranteed to stop the horseplay. No more anonymous callers or searching for the stuck mike. With this ANI system the dispatcher will know the vehicle number immediately. And no annoying tones for the dispatcher. The AID-30 encoder mounts in vehicle radio and automatically transmits ID number with a very short, 100-msec. burst. Has stuck-mike feature and time-out timer.

The AID-10 decoder provides the dispatcher with a display and printout of vehicle ID, date and time of each call. Vehicle emergency-status decoding and color monitor display are optional.

Fleet prices: AID-30 \$112 (100 qty.); AID-10 \$3198. Full one-year warranty.

CSC CONTROL SIGNAL CORPORATION

1855 W. Dartmouth Ave., #11 • Englewood, CO 80111 • (303) 762-1230
